## THIS IS A CLINCHER.

Open Letter From David B. Oliver, the Pittsburgh Manufacturer.

ON AMERICAN WAGES AND TARIFF.

He Answers an Assertion Made by Ex-President Cleveland-The Wages of 1858 Under Free Trade Rule Compared With the Rewards of Labor in 1802 Under a Protective Tariff-An Upanswerable Argument.

The following paper is from David B. Oliver, of Pittsburgh, one of the prominent iron and steel manufacturers in the country, who discusses an utterance of Mr. Cleveland from an American standpoint. Mr. Oliver shows that Mr. Cleveland is a theoretical enthusiast and that he entirely misstates the case when he asserts that the workingman does not share a fair division of the ad-

	1858.	1892.	increase 1892over 1858.	
Boiling Barroller Bar heater 10-inch roller 10-in. heater. Guide roller. Guide heater Com. laborer Teamster	3 00 per day 3 10 per day 2 50 per day 3 00 per day 2 50 per day 2 50 per day 75 per day	7 50 per day 17 00 per day	520 116 350 150 480 -212	

These figures are correct and may be verified at any time; those given by the day are netalter all hands are paid. In 1854 to 1860 store orders were largely the rule, and I have known Southside ironworkers to be compelled to take their pay in orders on stores more than a mile away, and obliged to carry all their purchases to their homes—and no electric car conveniences. Under our protective tariff thay get better wages, are paid in cash every two weeks, and if the "condition" and "home life" of our workingmen are not better under a protective tariff than under a low tariff it is their own fault.

Mr. Cleveland's second proposition that the workman "still waits for his division of the advantages secured to his employer" is equally baseless. I append a statement of wages now paid in England and in Pittsburgh for similar jobs with the per cent of increase of ours over the foreign prices. I have the English prices from an authoritative

Those floures s	DOM: TO	AF THORY	3 most 327	to Te

These figures show for themselves. It is now pertinent to our inquiry to ascertain the relative difference between the cost of labor paid by the Pittsburgh manufacturer and his English competitor on a ton of bar iron and the prices they obtain for it respectively, in order to obtain more fully the facts governing this "division," for which, Mr. Cleveland asserts, our workman "still waits:"

	In Engiand, with equiva- lentin C. S. money.	In Pitsburgh.	Percent of Pgh over Eng- lish prices.
g, per ton	7s 6d -\$1 60 7s 6d -1 65	\$ 5 50 5 50	

Pinished bars, per ton 256s 0d \$2372 35 84 73

If the American workman only received as his share of the "division of the advantages, etc." an increase of wares over that paid to the foreign workman equal to the proportionate increase which the American manufacturer receives for his finished product over that received by the English manufacturer it might be regarded as a "fair division of the advantages, etc." This would give him as his share 53 per

cent more wages than his foreign colaborer receives for the same labor on a ton of bar iron; instead of which, however, he receives 236 per cent more wages for the same work. I submit, therefore, that Mr. Cleveland's statement that "our workman still waits for a division" is unsupported by facts. It is the opinion of a theoretical enthusiast who has no practical knowledge of the subject, but who has adopted second hand a system which Mr. Blaine has aprly described as "having been worked out by a past generation to meet the requirements of a little island in the North Sea, after it had by the most high-handed protective laws madistelf the manufacturer for the world;" a system which experience has shown to be totally at variance with our needs, for disaster and oppression have followed every attempt at its adoption.

My experience of the workingman leads me to know that he is remarkably direct in his methods of reasoning and in his conclusions; he sometimes gets wrong, but does not often stay long; he knows what works to his advantage and what to his injury. The hundreds of thousands of workmen of all sorts and conditions who annually leave free trade countries and land on our shores, and who continue to come, bear ample and unanswerable testimony to the fact that the "condition and home life" of workmen are immeasurably better in this country than anywhere else.

Relative to "home-life" I may be allowed

when he asserts that the workingman does not share a fair division of the advantages of the present tariff laws. Mr. Oliver's letter is as follows:

"It is also true that while our workingmen and farmers can the least of all our people defend themselves against the harder home life which such tariff taxation decrees, the workingman suffered from the importation and employment of pauper labor instituted by his professed friends, and seeking security for his interests in organized co-operation, still waits for a division of the advantages secured to his employer under cover of a generous solicitude for his wages, etc."

The above extract from Mr. Cleveland's letter of peceptance contains two statements of alleged fact, to which I respectfully take exception, to-wit:

First, that under our present tariff laws.

I am tolerably familiar with the wages paid, and also with the home life of the workingmen of this country under comparative free trade, and also under a protective tariff in the iron and steel trades, having lived and worked under a protective tariff than they were under a low tariff, and in proof of this I append a list of prices taken from the books of one of the most reliable manufacturing firms and paid in Pittsburgh for the years as stated:

Per cent increase is not should be advantages seaded to the season of the most reliable manufacturing firms and paid in Pittsburgh for the years as stated:

Per cent increase is not should be advantaged and worked under the wages are better under/our protective tariff than they were under a low tariff, and in proof of this I append a list of prices taken from the books of one of the most reliable manufacturing firms and paid in Pittsburgh for the years as stated:

Per cent increase is not should be advantaged and the proof of the state of the first burst flows.

who lived in the East bottoms, and who had been picking up coal along the railhad been picking up coal along the railroad tracks near the smelting works,
discovered the body of a man lying in
the weeds, near Eighth and Dodge
streets last evening. The children reported the matter to an officer, who
recognized the body as that of C. G.
Miller, mayor of South Omaha. An examination showed that a 45-calibre bullet had entered the forchead near the
temple. There was a rumor that some
of the gamblers were responsible for
the murder, and the suicide theory was
scouted by the mayor's friends.

Committed Bigamy.

CLEVELAND, O., Oct. 4.-Jacob Greenway, a traveling clothing salesman, who way, a traveling clothing salesman, who came from New York six months ago was arrested here last night by request of the police of that city. On May 3, he married Miss Bessie Abrams, a young society lady of this city, and he has a wife and three children in New York. He showed Miss Abrams a Jowish writ of divorcement signed by a Rabbi, and she supposed it to be a legal divorce.

The Republican National Campaign Badge is now attracting attention with the opening of the campaign and the as-sembling of clubs and other organiza-

The Brigade of the New York Re-

The Brigade of the New York Recorder, six hundred strong, marched with this badge to receive Mr. Reid at Brooklyn on the 14th inst, and presented a handsome appearance.

The clasp of this badge, as shown in the cut, is beautiful and attractive, and represents the principles of the party; it is unique in being adapted so as to be attached to any other badge which any club may desire, and as a badge separate and distinct, is striking and attractive, and should claim the attention of all Republicans.

This badge will be furnished at two dollars and fifty cents (\$2.50) per hundred, and all communications addressed to R. W. Moore, postoffice box 682, Washington, D. C., will receive prompt attention.

A Cure for Cholers.

There is no use of any one suffering with the cholera when Chamberlain's Colic, Cholera and Diarrhea Remedy can be procured. It will give relief in a few minutes and cure in a short time. I have tried it and know.—W. H. Clinton, Helmetta, N. J. The epidemic at Helmetta was at first believed to be cholera, but subsequent investigation proved it to be a violent form of dysentery, almost as dangerous as cholera. This remedy was used there with great success.
